PLASTIC CARRYOUT BAG AND POLYSTYRENE FOAM FOOD CONTAINER BAN

WHY ARE WE TALKING ABOUT THIS NOW?

- To give all retail stores and food service businesses time to prepare.
- To build awareness as we recognize the need to use up existing inventory because all plastic carryout bags regardless of thickness and polystyrene foam will be banned.
- To provide time for the NJ Business Action Center, Department of Environmental Protection, and NJ Clean Communities Council to conduct awareness campaigns.
- To provide resources to help businesses comply with the requirements of the new law.

NEW JERSEY BUSINESS ACTION CENTER

- In the new law (P.L. 2020, c117), the Legislature assigned responsibility to the NJBAC to educate the business community about the new law because we have daily contact with the businesses in the state and are counted on to provide information about new laws.
- The NJBAC developed a detailed website to provide critical information to businesses.
- The NJBAC has reached out to every business organization, chamber, economic development office, downtown, Main Street, and local community groups to provide valuable business compliance information in both English & Spanish.
- The NJBAC has produced two videos describing the details of the law in both English & Spanish and has asked that it be placed on the websites of organizations across the state.
