

Welcome to the Hawthorne Gateway District

What is the Hawthorne Gateway District?

The Hawthorne Gateway District is a mixed-use neighborhood consisting of the borough's central business district and adjoining commercial and mixed-income areas. The Gateway also contains public facilities such as the municipal building, the library, a NJ Transit train station, public open spaces, and recreational facilities.

What is the Neighborhood Preservation Program (NPP)?

The Neighborhood Preservation Program (NPP) is a NJ state initiative offering grants to promote and encourage the social and economic development of targeted neighborhoods such as our Gateway District. This program directly serves those neighborhoods as part of a unified effort by the state, community, and its residents.

Why is the NPP beneficial to Hawthorne?

One of the ways we can strengthen the entire town is by supporting and enhancing this district's recreational and commercial assets for all Hawthorne residents and visitors.

Points of Interest
